

E Series

Economical manual tarpers for small truck bodies.

These affordable tarpers are ideal for contractors, landscapers and municipalities.

E-300 - Ideal for Landscapers

Features include: 2" telescopic roller, pivoting handle, bearing plates, and rectangular mesh tarp.

PIVOT CRANK HANDLE

Allows additional clearance for safety. Locks at bearing plate to secure tarp.

E-500 - Ideal for Municipalities

Heavy duty system features: 2" telescopic roller, pivoting handle, 6" wide bearing plates, and rectangular mesh tarp. System comes standard with a rear section with guides, rope and cleats.

Ground level operation increases operator safety.

E-550 - For Rack and Tub Bodies

Features include: 2" telescopic roller in a housing that expands from 84 to 96", pivoting handle, rectangular mesh tarp, rear section with guides, rope and cleats.

E-600 - The premier manual system

Features include: spring-loaded 3" telescopic roller in a housing that expands from 84 to 96", rectangular mesh tarp, rear section with guides, rope, cleats and "J" hooks to secure the rear section to the rear of the truck.

E Series systems come equipped with all the necessary mounting hardware.
